Features

▶ Admission

Student admission can be made so quickly and efficiently through the "Quick Admission" feature. This enables the user to accomplish the entire admission process in a very simple way.

▶ Fee Collection

The "Fee Collection" feature suits any kind of fee structure designed by the school management. Since this module is flexible and customizable, collecting fees and generating reports becomes very easy. Both "Fee Receipt" and "Bank Challan" systems are supported.

Options such as "Fee Reminder" and "Defaulter's List Generation" enables the management to handle the fee collection operations flawlessly.

▶ Attendance

Attendance of students and staff can be recorded easily and the task becomes so effortless. The staff attendance is integrated with payroll.

▶ Discipline

Recording students' awards, reproof and remarks helps management to make important decisions in disciplining students and developing their personality.

▶ Transport

Routes and stages depending on the school can be assigned to the institution vehicles and the fares are integrated with the "Fee Collection" module.

▶ Marks

The academic performance analysis of the students can be reported class-wise, subject-wise and community-wise. This enables the school management to monitor the students' performance and take appropriate actions to improve their performance.

▶ Staff

Staff information access is very easy and customizable reports can be generated.

▶ Payroll

Pay bill can be generated instantly. Also, salary slip, salary certificates, salary ledger and all statutory reports can be generated.

▶ Accounts

Accounts module is simple and user-friendly. It is closely integrated with other related modules. It provides total control over the transactions and helps manage things efficiently. It can be integrated with Tally (upon request).

▶ Library

Library module supports dynamic member type creation and management.

▶ Inventory

The stock management is efficient and enables accuracy in accountability.

▶ Schedulers & Reminders

Alerts can be scheduled to remind the user to take a specific course of action at any desired point of time – for example, tax payment reminder, birthday wishes reminder and so on.
